

AMENDMENTS

In the Claims:

1. (Original) A polyethylene filament having a tensile strength of 15 cN/dtex or more and a tensile modulus of 500 cN/dtex or more, wherein an index value of a Circular knit comprising the filament is 3.0 or more as determined by using a coup tester.
2. (Original) A polyethylene filament according to claim 1, comprising a polyethylene having a weight-average molecular weight of 300,000 or less and a ratio of a weight-average molecular weight to a number-average molecular weight (M_w/M_n) of 4.0 or less as determined in the state of a filament.
3. (Original) A polyethylene filament fabric excellent in incision resistance, comprising the polyethylene filament according to claim 1.
4. (Original) A incision-resistant glove, comprising the polyethylene filament according to claim 1.
5. (Original) A incision-resistant vest, comprising the polyethylene filament according to claim 1.
- 6-17. (Canceled)
